

Security and Compliance Peace of Mind.

What is AO: Compliance?

If you have to ask yourself, “Is my business PCI or HIPAA Compliant?” or “Are we secure?”, the answer is NO. Becoming secure does not happen by accident; it requires planning, execution, constant vigilance and an ongoing investment. AO: Compliance contains everything your business needs to achieve, manage, and maintain IT security, and PCI or HIPAA Compliance. AO: Compliance works to get you secure and keep you there, with manageable and predictable costs, schedules, and outcomes, whether your business takes one payment card transaction per year or one million. No matter how big or small your business may be, AO: Compliance provides the expert services, consulting and support needed to protect your data, reputation, profits and customers from a costly security breach.

The IT Industry's first security and compliance solution, designed to help your business achieve, manage and maintain PCI or HIPAA Compliance. With predictable costs, schedules and outcomes, AO: Compliance is a completely managed solution that guarantees you and your business “peace of mind” when it comes to compliance, security, and data breach protection.

“With AO: Compliance, your data security is no longer a guessing game.”

AO: Compliance is your single source for solving all your IT security, and PCI or HIPAA Compliance requirements and challenges. With AO: Compliance guiding you through the complexities of the PCI and security standards and mandates, you'll no longer have to wonder or worry if your business is truly secure and compliant.

Top Benefits for Your Business

With AO: Compliance, you no longer have the burden of getting secure and compliant while running your business at the same time. Let our experts look out for your business, we'll make certain you adhere to and comply with the constantly evolving standards, laws and regulations you must follow to avoid a breach. Check out some of the top reasons AO: Compliance provides you with security and compliance peace of mind.

- ✓ **We Work With Your Existing Equipment and Infrastructure:** Our first goal is to secure your existing systems and equipment, to minimize your cost and avoid rip-and-replace spending.
- ✓ **Services are Scalable and Customizable:** Whether it's an initial consultation, simple security advice, a GAP analysis, or complete remediation, AccuCode will investigate your vulnerabilities, and work to fix only what you truly need.
- ✓ **Business Expertise:** With AccuCode's 20 years of retail and hospitality expertise, we are masters at identifying your business needs. And with the industry's leading technology and payment processing partners at our side, you are assured that your security and compliance issues will be resolved quickly, cost effectively and predictably.
- ✓ **We Get You Educated:** Solving security and compliance issues is not easy. Part of our job is educating you on the latest industry requirements, standards, tools and technologies, through our AO: Compliance monthly webinars, and continually updated online AO: Compliance Member Resources.
- ✓ **One Point of Contact:** AccuCode supports your entire security journey, making every step as painless as possible. Just one website, phone number, and point of contact for any of your security and compliance needs.
- ✓ **Breach Protection:** We are so confident in our AO: Compliance solution, that we offer our customers breach protection to off-set the cost of any other future remediation fees or forensic security investigations.
